

## UX/UI DESIGNER (f/m/d)

Hello Dear Applicants

We are looking for an **experienced UX/UI Designer** (f/m/d) to complement our team.

We love projects that challenge us and demand innovative solutions. We use the latest web and app technologies to drive the digital transformation of our customers. In doing so, we create industry-revolutionizing results.

Working with us, you'll create UX concepts and UI prototypes for big brands. You will work on large digital client projects as well as at the heart of our own products and tools. Together, we digitize the business and consumer world across platforms such as web, mobile, tablet or interactive POS systems.

Are you ready to turn your UX/UI skills into unique, real products?

Then send your application to **Max Stemplinger** [[recruit\(at\)campudus.com](mailto:recruit(at)campudus.com)].

### Your Responsibilities

- Self-directed conception and design of unique UX and UI concepts
- Developing the design of digital products, services and software
- Developing overall user interfaces and operating logics for various innovative systems
- Creating wireframes, prototypes & click dummies to support your development team
- Agile teamwork and direct collaboration with clients
- Taking ownership of the UX/UI design area and the future design direction of our products

## Your Qualifications

**"Do what you do best!"** - We believe that qualifications are important, but your interest and passion for UX/UI design are the things that define you. We'll put your skills to work where you are strong.

- Design-oriented studies in the field of media design, UX/UI design, interaction design or a comparable course of studies
- Passion for good design and intuitive UX/UI concepts
- Strong experience with tools like Sketch, Figma, Adobe XD, Flinto, Principle or similar programs
- Experience in creating UX/UI concepts, wireframes and prototypes
- Experience in developing entire design systems
- Enthusiasm for design trends and current technologies
- You speak English fluently, German is a plus

## Our Benefits

- The opportunity to play a significant role in shaping the success of the entire team
- We develop products that inspire our customers and ourselves
- A dynamic, motivated and familiar team
- Best espresso and coffee thanks to our portafilter machine
- A workplace with high-quality, ergonomic equipment and a nice location
- Latest and self-selected hardware
- Flexible working hours and work arrangements (home office)
- High-quality bikes and latest eBikes at favorable conditions
- Attend meetups, congresses or coding camps for your personal development

Type of position: Full-time, unlimited

## Our Stack

- Design Tools: Figma, Sketch, Adobe XD, Adobe CC, Flinto, Hype
- Languages: JavaScript, TypeScript, Scala, PHP
- Frontend: React, Redux, Lodash, Webpack
- Backend: Node.js or Vert.x
- Database: PostgreSQL, MySQL, Elasticsearch
- Build Tools: Jenkins, Webpack, Gulp, Gradle
- Infrastructure: Cloud Server (Ubuntu, Debian), Docker, NGINX, Let's Encrypt, Sentry
- Development: IntelliJ IDEA, BitBucket, GitHub, Confluence, Scrum, Pull Request Reviews
